The Hiring Manager,
Infosys Bangalore.

Respected Sir/Ma'am,

I am writing to express my interest in the software engineer position at Infosys Bangalore, as advertised on your career page. As a computer science and engineering student with a strong passion for programming and problem solving, I am excited about the opportunity to contribute to Infosys' mission of delivering innovative and scalable solutions.

I am currently pursuing my B.Tech in CSE (AI & ML) at Graphic Era Hill University, Dehradun. Throughout my academic journey, I have developed a strong foundation in Data Structures, Algorithms, Object Oriented Programming, SQL, Java and core subjects like Operating Systems and Computer Networks. I enjoy building efficient code and solving real world problems.

I have worked on several academic projects including a Smart Travel route Planner using graphs in C, Image Encryption and Decryption using Vigenere Cipher technique, Airline Reservation Management System and an Intelligent Attendance automatic payroll using a CNN model for facial recognition.

What excites me most about Infosys is your culture of innovation, employee learning, and the global impact you create through technology. I am eager to learn from the best minds in the industry and grow as a professional while contributing to meaningful projects.

I have attached my resume for consideration. I would greatly appreciate the opportunity to discuss how I can contribute to Infosys.

Thanking you,
Yours sincerely,
Shifa Parveen
